PROFESSIONAL EXPERIENCE

NRTV Collab, LLC, Costa Mesa, California

January 2017- Present

Partner/Founder

- Built and implemented the business structure of a startup with partner Luke Wronski, where we provide collaborative services and consultation to help small startups grow in the outdoor goods industry.

SoCalGas, Anaheim, California

December 2015 – July 2016

Senior Account Executive

- Managed all communications for the Mobile Home Park Upgrade Utility Program for over 30 mobile home parks. Responsibilities included: presentations delivered to MHP owners and residents explaining the scope and expectations of the project; daily communications with owners to guide them through the process from application to invoicing; various deliveries of documentation/notifications to residents and owners throughout the project; compilation of all documentation for CPUC auditing.

Aliso Community Liaison

- Performed as a single point of contact for 80+ families who were affected by the Aliso Canyon Gas leak. Responsibilities included daily calls with residents to coordinate relocations and reimbursements.

SPEC Services, Fountain Valley, California

May 2011 – December 2015

Project Manager / Project Engineer

Over 4 years of experience performing pipeline engineering services for the oil, gas, and water industry. Most recently worked for the SoCalGas Pipeline Safety Enhancement Plan (PSEP) for projects consisting of 10 miles of replacement and 2 miles of hydrotesting totaling over \$75 million. Responsibilities included facilitating outreach with cities, companies, and customers affected by the construction zone; presenting the construction scope to SoCalGas PMO, regional departments, and customers; leading meetings for design and construction updates.

Project Controls Process Manager

- In charge of project reconciliation of all PSEP performance partner contracts and coordination with third party auditors for over \$100 million in projects closed out. Tasks included: working with management to create and streamline the reconciliation process; producing and implementing several strategic documents to track and calculate projects costs; leading reconciliation meetings: coordinating and collecting contractor's self-reported actuals; working with all departments to ensure the projects completeness; ensuring contract retention payment calculations and submittals upon completion of all contractual obligations.

First Congregational Church, Anaheim, California

September 2008 – May 2011

Youth Leader

- Responsible for budgeting, networking, and heading weekly meetings for the youth group as well as coordinating, organizing, and advertising hospital building trips to Mexico among other outreach trips.
